Issues To Be Discussed

Issues (Rej., Obj., etc)	Claims/ Fig. #s	Prior Art	Discussed	Agreed	Not Agreed
(1) <u>Rej.</u>	<u>Claims 1 to 22</u>	<u>Piechowiak and Singer</u>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Brief Description of Arguments to be Presented: Piechowiak discloses a bonus hit counter (Fig. 6), which increments by a fixed amount each time a bonus hit outcome occurs. Singer discloses an "Amount Bet Per Line" meter which displays to a player the number of credits wagered per payline. The Office Action states that it would have been obvious to modify Piechowiak to include a bet per line meter to quickly and efficiently tell the user how much is being wagered per payline. We do not understand how modifying Piechowiak to include a meter with a bet-per-line meter to inform the player how much is being wagered per payline would result in a gaming device having the meter of independent Claim 1. We would like to discuss this during the interview. We are also willing to discuss clarifying claim amendments during the interview.
